***Election/Restrictions***

Claims 18-28, 30-33 are generic to a plurality of disclosed patentably distinct species comprising various functional groups of R, R', X, X', P, P', L, L' Y.

Following the election of August 23, 2003, Applicant is required to further elect or identify the specific species for the following groups:

- R and R' as enumerated in claims 18, 19, 24,
- X and X' as enumerated in claim 18, 25,
- L, L' and L'' as enumerated in claims 18, 26,
- P, P' as enumerated in claims 18, 27,
- Y as enumerated in claim 18, 28.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant had originally responded to the species requirement of June 27, 2002 in the communication filed on August 23, 2002. However, the presented arguments in the last Office Action, filed on March 30, 2004 and December 30, 2004 do not seem to be consistent with the scope of the pending claims. Therefore, for the clarity of record, Applicant is required to further identify the type of functional groups corresponding the pending claims 18-28, 30-33.

Claims 1-17 stand withdrawn as they are not directed to the elected species for the reasons of record filed on July 2, 2003.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the

case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Mr. Cawley on June 21, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shahnaz Sharareh whose telephone number is 571-272-0630. The examiner can normally be reached on 8:30 am - 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreenivasan Padmanabhan, PhD can be reached on 571-272-0629. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
